## **Determinants of Sustainable Investment Promotion in Somaliland: Challenges and Opportunities**

## CONTENT

- Background of the Study
- Somaliland in the Investment derivations
- Study Objective
- Methodology
- Data visualization
- Conclusion and recommendations

## 1. DESCRIPTION OF THE STUDY

- We are here to perceive the first draft of research about the financial Literacy.
- This is a research initiated by the Ministry of Investment in October, 2023.
- The study's motive is to assess the Determinants of Sustainable Investment Promotion in Somaliland: Challenges and Opportunities .
- Two Samples: 75 Respondents from the Investors and 15 Public institutions
- A Total of 90 Respondents are planned as Sample Size.
- Instrument: Questionnaire

## 2. BACKGROUND OF THE STUDY

Sources: NDPS II

## BACKGROUND OF THE STUDY

- Investments can serve as tools for generating employment, income, and reducing poverty, which makes them important for an economy's progress (Bartholdy and Mateus, 2008).
- Economic growth is fueled by private sector investment. Private businesses make investments in innovative concepts and bolster the framework for economic growth and prosperity (World Bank 2004).

### 3. SOMALILAND IN THE INVESTMENT ORIGINS

According to contemporary up to last three decade, Investment of Somaliland were in their establishments and broadminded stage by the investors and aged since 1991.

## SOMALILAND IN THE INVESTMENT ORIGINS

The 5th President of Somaliland, He Muse Bihi Abdi, established the Ministry of Investment and Industrial Development as a brand-new government institution on December 14, 2017.

a very unusual story about Somaliland Context is that the private sector have the initiatives for the institution establishment first than rules, regulations and policies are developed later!

Thus the Investment sector flows the same scenario.

Unusual story: observable in the Context.

## INVESTORS REGISTERED BY SECTOR

Sector Allotment	Observations	% Out of the total
Agriculture and Food	7	6.3
Livestock/Fishery/Poultry	7	6.3
Mineral/Mining	32	28.8
Energy (Electricity, Oil Gas etc)	15	13.5
Construction	14	12.6
Industry/Manufacturing/Factory	17	15.3
Service/Multiple/Technology	16	14.4
Investment and Fund Management	3	2.7

# Infrastructure

Financial Factors			N	Mean	Std. Dev.
Access to loans			75	4.213333	1.003956
Access to Equity Finance			75	4.266667	1.338952
Access to Grants			75	4.360000	1.269603
Collateral Requirements			75	4.240000	1.076029
Average spread	Murabaha rate		75	4.266667	1.166345
Grant Mean				4.2693334	1.197896

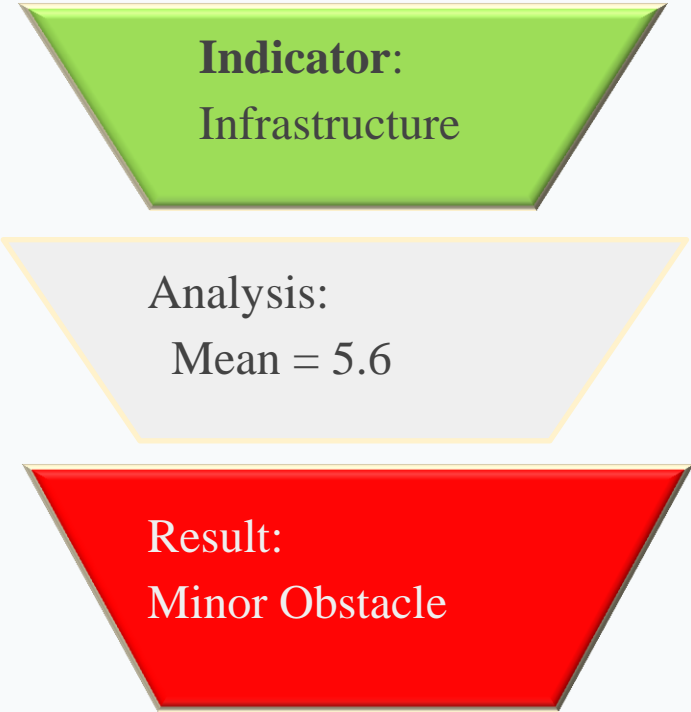

Source: Survey Data, 2023

# Technology Factors

Technology Factors	N	Mean	Std. Dev.
High-speed internet access	75	5.4	1.19
Mobile networks	75	5.8	1.14
Price of the internet	73	5.7	1.22
Grant Mean		5.6	1.19

Source: Survey Data, 2023

## Energy and other utilities

Energy and other utilities	N	Mean	Std. Dev.
Access to Electricity	74	4.8	1.30
Access to Utility services (water, gas, etc.)	75	4.2	1.16
Affordability of the price electricity	75	3.9	1.19
Energy availability and reliability	75	3.9	1.18
<b>Grant Mean of Energy factors</b>		<b>4.2</b>	<b>1.21</b>

**Indicator:**  
Energy

**Analysis:**  
Mean = 4.2

**Result:**  
Major Obstacle

Source: Survey Data, 2023

## Physical Indicators

Physical factors	N	Mean	Std. Dev.
Ease of transport services	75	3.7	0.91000
Access to land resources	75	3.6	1.24000
Access to raw materials	75	4.853333	1.503989
<b>Grant Mean</b>		4.03555533	1.217665

**Indicator:**  
Physical Indicators

**Analysis:**  
Mean=4.0355

**Result:**  
Major Obstacle

## Conclusion and Recommendations

The investment opportunities, incentives and policies should be communicated

Political related Factors are severely adversely affecting investment so that should be permanently solved

Legal and Regulatory Framework and Administrative is recommended to Improve

## Recommendations

**Energy is one of the largest problems in the Investment Sector so generating accessible energy is significant**

A programs for the Human Capital development should be certified and create a access to finance

To mitigate the Socio-cultural issues for the Investment, a awareness campaign must be persuaded
